Customer Reviews

"At first glance 'Be a PMP ace in 30 days' might come off as a tall claim but the discerning PMP aspirant who picks it up for a closer look is bound to be pleasantly surprised! The author's attempt at creating a guide for PMP is uniquely refreshing in that its a personal journey on paper that is easily recreated. With umpteen guides in the market its a cumbersome exercise to zero down on an effective process to approach the PMP exam. With the most helpful resources, weekly calendars, and process charts, this book seems to be a welcome change. Perhaps the most endearing quality of the guide must be the disarmingly candid manner in which the entire process for preparing and attempting the PMP is presented. The book seems to be primarily aimed at the PMP aspirants who do not have the luxury of time, but with its numerous study resources and links to free simulation exercises it is also invaluable to someone who wants to take it slow and steady. A definite must buy for any PMP aspirant!!" -Â Steffi Sam
