Don Diego Ramirez is an often controversial and outspoken art figure. He is a critically acclaimed Fine Art Photographer, contributing writer to SUPER 8 TODAY magazine and award winning Super 8 Filmmaker (Best Documentary; Trailer Trash: A Film Journal U.S. Super 8 Film Festival, 2007). He currently lives in the dark woods of West Virginia.

I had hoped for more information than this book offers, but what is here looks to be a great jumping point for learning more about the Super 8 filmmaker community. It's a good start, like I said, but could use less 1970's advertisements and more 2013 information.maybe it is time for a revised and expanded edition ? hint ... hint ... wink, wink, nudge nudge.

Don Diego Ramirez has created a neat little resource for the Super 8 shooters of today. The book is filled with current (2009) information on camera suppliers/repairers, film processing/telecine companies and other people of interest within the growing Super 8 community, although mostly American based. It is certainly not a complete book of 8mm filmmaking, but provides good info on

where and how to start shooting on Super 8mm.

No real useful information for shooting Super 8. Not what I expected.

If you are interested in super 8mm filming thats the book.

Great, but if you're looking for a hands on, how-to guide, this isn't it. If you're a film/camera history buff, then this book has tons of cool old ads for Super 8. I guess it's apparent in the title that it's a journal, not really a guide.

Not a great book. I'm not even really sure what it's about. It's poorly written and bizarre style makes me think of tabloid newspapers and ads in the backs of old magazines. My advice is that you shouldn't buy it unless you find it for \$1.00 or less at a garage sale. I gave it two stars because of the reference material provided.
