Yun Kouga began her career as a doujinshi and debuted in 1986 with the original manga Metal Heart, serialized in Comic VAL. She is the creator of the popular series Loveless and Earthian, along with many manga and anime projects, including character design for Gundam 00.

Loveless has some of the most beautiful art I have ever seen.

Loveless is one of my all time favorite series, both the anime and manga. Hope to buy the rest of the series.

It came in brand new! Clear words and pictures (minus one printing mistake where the text was smudged a bit, but that's common.).

This book is a great, I have read the first few but I wanted to read more so I ordered it. It took a little longer than I was expecting to arrive but it did and I am so excited to add it to my collection. ^^

I'm always satisfied. words can't explain how much I love this manga so I want to be excited when I get it! It's in great condition and arrived so quickly!

good

It arrived in brand new condition and is a perfect collection of this series. And all the little extras make it even more special. It also was at a very reasonable price. I am going to preorder the next volumes very soon!

~4/5 [More of my reviews are available on my blog, Geeky Reading, to which there's a link on my profile.] I am really, really enjoying this series. I remembered this series being good, yaoi-like, but confusing. Now I'm reading it with a more mature mind, with more focus, so it's a lot less confusing (although there are still some things). It's also a lot better than I remember. For instance, I really like Ritsuka. I feel bad for him for certain things, like his mother, and I understand and sympathize with his confusion, his not knowing what's happening or what he wants. I really like how he's dealing with it, and watching him figure things out and try to take charge. I'm looking forward to seeing him grow up more, to mature. I like Soubi, too. He's fun, although sometimes frustrating and saddening with what he's doing with Ritsuka, and what he's not telling Ritsuka. I feel like there's more to Soubi, and I want to know what it is. Then there are other, more minor, characters, and they're all really good, and really easy to like. I love how the relationships are building, how the plot is forming around them. It's really enjoyable to read. On that note, I am still unsure where the yaoi elements are going. Because they're quite apparent between Soubi and Ritsuka, but maybe they're not thinking of them quite like that, or something? I don't know, I feel like I'm missing something there. Then there's the age difference, which I guess isn't as big as it seems. Ritsuka is younger than he looks, and Soubi is a lot younger than he looks, and that just messes me up. Ritsuka looks like he should be sixteen, maybe, and Soubi like twenty-five, maybe, and yet they're twelve and, I think, (around) seventeen. It messes me up every time I remember. Then there's the whole game and spell-fighting thing, which is

a confusing blob that is slowly starting to make sense. A good amount was explained here, but I'm still not sure of the logistics, or the reason for why. Or how they can fight and then be amicable afterward. It's just not clicking with me yet, but I hope it will soon. I'm loving the buildup of everything, though. Seeing the characters develop and grow, watching the plot expand and reveal itself, and I'm definitely looking forward to reading more, to figuring more out. Also, as a sidenote: I love the nice, big, color-paged editions of this book. They're just so pretty, the color-pages are so nice. I don't have many big, colored editions of books, so I like looking at these ones.
