Information outdated

Having lived in Liberia for several years it is great to finally see a guide book produced for the country. It is even better to see one that is as funny and informative as this one. It had practical details on attractions, particularly outside Monrovia, that I had never heard of before and interesting details on places like Harper and Robertsport that I thought I knew everything about. And practical bits about how to avoid being robbed or rude. The back section was the best part though lots of explications of cultural things, trees, animals, even a bit about why the ground is so full of gold and diamonds etc. Glad to see the country getting the treatment it deserves.
