Customer Reviews

I purchased this collection because it had a recent publication date, so I was expecting more current titles. The songs included are nice, and some are quite recent such as "Glorious Day" by Casting Crowns and "Christ is Risen" by Matt Maher. However, some of the other titles are "Amazing Grace (My Chains are Gone) " and even "Cinderella" by Steven Curtis Chapman and "Via Dolorosa" by Sandi Patti(?). So I gave 4 stars only because the title should have been something like Christian Megahits of All Time due to the inclusion of older songs.

I almost gave this book 4 stars for the reason that most of the songs are the same as the previous edition so you don't get much new that you didn't already have! But at the same time if you don't have any other books in this series then you will be very impressed with this book. The sheet music matches what you hear on the the real songs and are intended to accompany the singer. If you don't like to sing and play this may not be the book for you.

This book includes a good variety of popular contemporary Christian hits. The music is well written and the piano part includes the melody throughout the song

I do like some of the arrangements; don't care for the 6 sharps and 6 flat ones. I have better arrangements of most of those. But for a book that isn't so repetitious like most, this is a good collection.

I sing, play piano and am learning guitar so this book is perfect because it has the vocals, piano and guitar all together. A great compilation of songs too.

The cover was printed backwards. And the pages tare too easil .

While the book itself is mostly well-written, there are a few arrangements that aren't as impressive as others, in my musical opinion. I would definitely recommend it to a student who was looking for a

book with a wide variety of songs by a variety of artists, however - there is a large selection in this book! I have to down-rate just a bit for the fact it's not a spiral edition. As thick as this book is, it's nearly impossible to get to stay open without breaking the spine and having the pages come loose at either the top or bottom at the spot you bend it, and even then it doesn't like to stay open when you're in a song close to the beginning or end of the book. The middle songs stay open ok once you crack the spine, because the weight of the other pages is even and balances. If this were a book that would stay open, it would easily be a high 4-star rating. As is, it's an average 3.
