Customer Reviews

The Sleepover Book by Margot Griffin, illus. by Jane Kurisu, includes everything necessary for a slumber party success, from pre-party planning to breakfast the next morning. The volume also includes activities such as "Face Boosters" (an easy mask made of apples and oats) plus midnight snack recipes. Copyright 2001 Cahners Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

Gr 2-7-A wonderful book that's crammed with great ideas for sleepover (or birthday party) themes, invitations, decorations, and favors. There are chapters on games and things to do, crafts, and "beauty fun." Activities include making a music video, having team treasure hunts, and telling scary stories. The crafts might be a little tricky for younger girls, but virtually everything else will work for a

variety of ages. The chapter on cooking is subdivided into dinners, desserts, midnight snacks, and breakfasts. Published in both Canada and the United States, the book lists the ingredients in metric and imperial measurements. The illustrations, done in blue and yellow and all featuring girls, are lively and engaging. Jane Halsall, McHenry Public Library District, IL Copyright 2001 Cahners Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

I have had a copy of this book in my elementary school library for several years and it's always been very popular with the girls. The library copy was lost this year and, luckily, I was able to replace it through .

We got the book when we were supposed to. The book has some good ideas in it. My daughter has enjoyed it, She is 10 years old.

My daughter checked this book out at the library, and LOVED it!! She's read other sleepover books, but none were as good as this one. She really recommends it!! We plan on purchasing our own copy.

I love remember buying this book when I was in middle school at the scholastic school fairs and I was OBSESSED with this book ! If My mom didn't give it away I would still keep it until today

I bought this book for my daughter, about to celebrate her 10th birthday. I think we will need to have several birthday sleepover bashes, as there are way too many great ideas in this book for her to choose enough for only one night! Really creative invitations, inexpensive crafts, age appropriate food preparation, laugh giggle and squeal games, with clear instructions for the 8-12 age group. Great for this age, where she really wants to be involved in the planning. I don't know if the girls will get any sleep, but it looks like we're going to have a terrific party. Or two. Or more?

This book is full of great ideas for a sleepover. My daughter and friends had a wonderful time with this book. I would recommend this to anyone thinking of having a sleepover!!
