""Essential spiritual teaching...one of the most valuable books I've ever read."

The bestselling author of "The Power of Now" reveals specific, powerful insights on how to be

present in this very moment. Abridged. --This text refers to an out of print or unavailable edition of this title.

I just discovered Eckhart Tolle recently. His books and cds have changed my life. If you looking for a chance at spiritual enlightenment don't pass this by.

A great seminar on going beyond your mind and living in pure consciousness of the now. Let go of form and live here and now.

a game changer

"Entering the Now" was my first exposure to Eckhart Tolle and "The Power of Now" series...the most positively impactful thing I have ever read or listened to (and that's saying a lot)!When I first listened to it, I laughed out loud...at Eckhart's humor, and more importantly because my mind was blown away by the concepts...after listening with great pleasure to this several times, and then to "The Power of Now," the life-changing concepts are sinking into practice and the quality of life for me and those around me has improved significantly.This is the most important book/audio ever made. No exaggeration. You are not being responsible to yourself and those around you if you don't give it a try. Besides, it's fun.Sincerely,JB

The contents of this is already available as part of Realizing The Power Of Now. It does say it on the cover of the CD, "Excerpted from Realizing The Power of Now," but it should be stated online when sold on websites such as this one. I recommend bypassing this one and getting the longer version, which is excellent.

I love Eckhart Tolle and the content of these Cds is beautiful.BUT this 2-CD set is already part of another 6-CD set entitled "Realizing the Power of Now: An In-Depth Retreat With Eckhart Tolle".The point is that it is not clearly stated (unless you click on the cover picture to magnify it) andthey have even used for this product a different title, colour and graphics!As I bought both sets at the same time, when I found it out I felt cheated.

I enjoyed the message and Tolle's playfulness with which it was delivered. The one complaint I would have is that his voice is too quiet to hear sometimes.
