Dan Brayack prefers sport climbing (heâ™s climbed 5.12d sport) but bouldering is a lifelong passion, especially technical slab, face, and gently overhanging face. He has bouldered V6, and considers Cooperâ™s Rock his home. Tim Keenan began climbing while attending West Virginia University and honed his skills at Cooper's Rock State Park. He enjoys all things sandstone, preferring roofs, bulges, and slightly overhung faces with bad holds.

Great guidebook, easy to find routes.

Great guidebook for the price. Everything you need to make a trip out there. I knew I was going to pass through on a trip, bought the book and had a great day bouldering and found camping easily. Well worth the few bucks if your going.

Great guide. Shows maps and routes in good detail.

Nicely done and easy to follow.

This is a great guidebook that unlocks the hidden gems of coopers rock.

Falcon guides are the best for hiking and other outdoor activities. I do wish there were more precise lat and long coordinates.
