## **Customer Reviews**

Love the book. I am half Korean half white. My husband is full Korean... we are a very busy family and trying to integrate the act of learning Korean is not always easy. These books are AMAZING and they make us so happy... we are a little jealous that they didn't have them back when we were young, but we are very thankful that they exist now. I will admit that for someone that is a beginner

at reading the Korean language, I still haven't gotten all the way through the book. It honestly takes a lot out of me to read to my 8 year old. However, for the long term I am very very appreciative of the author of these books for making them available on .com. Thank you so very much for making bilingual Korean books that did not exist 20-30 years ago. GOD BLESS YOU.
