Sumatra Handbook (Footprint - Travel Guides)

Synopsis

Sumatra is a natural wonderland of luxuriant forests, fast-flowing rivers, vast swamps, cool highland lakes and imposing volcanoes. It encompasses a panoply of trees, flowers, mammals, birds, reptiles and insects to satisfy the most demanding naturalist - among them the world's largest flower, the 'Rafflesia', the orang-utan, Asian elephant, Sumatran rhinoceros and tiger, the sunbear, three species of gibbon, ten species of hornbill and the (occasionally) man-eating estuarine crocodile. But the island's fascination lies in its interplay of nature and culture. Strikingly beautiful, Sumatra is also home to an array of cultures that have maintained their identity even in the face of Jakarta's modernizing tendencies

Customer Reviews

After searching high and low I finally found this book at . I had already researched the book and knew which one I wanted to buy but was a little concerned as to the possible delivery delays to Australia. Not only did the book arrive exactly as described and very well packaged... the delivery was very fast and it arrived within the timeframe quoted by . It is an excellent resource for anyone travelling to Sumatra. Most books available also cover Indonesia but this book concentrates wholly and solely on Sumatra. I was unable to purchase this book in Australia and really saved the day!
