Customer Reviews

Comments from previous edition The text is very pragmatic and systematic. It promotes assessment and realistic treatment options rather than focussing on elaborate instrumentation. The authors are

also prepared to recognise and outline that in many instances a 'expert'™ views differ at many stages in the treatment of the pulp. Nonetheless they offer sensible a 'best practice'™ routes through these often conflicting approaches. Dr Adrian Jowett, School of Clinical Dentistry, University of Sheffield I found the book very easy to read and it is well thought out in terms of flow and the order of each chapter. The authors have an excellent grasp of the literature and the book is sufficiently evidence based. Dr Phillip Tomson, Birmingham School of Dentistry, Birmingham The list of topics covered in this excellent book is comprehensive. I cannot think of any significant omissions. The balance of the book seems to be entirely appropriate. I found the style excellent and there were copious, clear illustrations and the general appearance and quality is very good. This book is relevant for undergraduate and postgraduate curricula in UK dental schools. The subject of endodontics (or endodontology) has significantly expanded in recent years and so the scope of endodontics that a dental student should grasp has expanded. This book serves, therefore, as an excellent text to compliment curricula. It would also be of use to general dental practitioners and specialists. Dr AJ Preston, Liverpool University Dental Hospital, Liverpool Endodontics is a valuable resource for clinicians at all levels with an interest in this specialty and also for those looking for practical advice to improve their clinical practice. British Dental Journal, August 2014

Kishor Gulabivala is Head of Endodontology and Department of Restorative Dentistry at the Eastman Dental Institute, University College London. He is also an Honorary Consultant in Restorative Dentistry at the Eastman Dental Hospital, University College London and Hospital Trusts. Kishor graduated from Birmingham Dental School in 1980. After 3 years in general practice, he completed the MSc in Conservative Dentistry in 1984 and consolidated training in Conservative Dentistry as a registrar from 1984 to 1986. He was appointed Lecturer in Conservative Dentistry in 1987, when he also enrolled onto higher training in Restorative Dentistry at the Eastman Dental Hospital (1987-1994) at the end of which he was appointed Consultant in Restorative Dentistry. He established and ran the MSc in Endodontics (1989), the MClintDent and specialist training programmes in Endodontics (1999) and the Diploma in Endodontic Practice (2011). He also established and ran the clinical endodontic service at the Eastman Dental Hospital from 1994 to 2004. Kishor was entered on the UK Specialist Lists in Restorative Dentistry, Prosthodontics and Endodontics when they were established in 1999/2000 and completed his PhD on microbial infections of teeth in 2004. He was Training Programme Director for Restorative Dentistry at the London Deanery between 2006 and 2011; and is now the Training Programme Director for Endodontics in London (2012-2015). Kishor's™ research interest is centred in Endodontology and

has published widely both on basic and clinical research questions with over 100 peer-reviewed papers and over 100 research abstracts. He also serves as Associate Editor of the International Endodontic Journal. Dr. Ng graduated from the University of Hong Kong in 1985 and spent 9 years practicing general dentistry in the Government Dental Service in Hong Kong. She was granted the Hong Kong Government Scholarship to undertake the Master of Science programme in Endodontics at the Eastman Dental Institute in 1994-5 which she passed with distinction. Upon completion of the programme and return to Hong Kong, she was promoted to Senior Dental Officer. During the two years of this office, she developed a referral endodontic service for the Government Dental Services. She was also appointed Honorary Clinical Lecturer at the University of Hong Kong and contributed to their postgraduate programmes. In 1997, she returned to the Eastman Dental Institute as a full-time Clinical Lecturer in Endodontology. She was promoted to Senior Clinical Lecturer in Endodontology in 2010. Dr. Ng served as a Senior Programme Coordinator for 10 years and became the Programme Director for the MSc in Endodontics and MClintDent in Endodontology programmes in 2007. She is currently also the Educational Supervisor for the Specialist trainees in Endodontology. Dr Ng has lectured widely to local and international professional groups. Dr. Ng is a UK General Dental Council registered specialist in Endodontics and a certified member of the European Society of Endodontology. Dr. Ng's other professional commitments include her membership of the scientific committee of the British Endodontic Society and the European Society of Endodontology; and Associate editorship of the International Endodontic Journal. Dr Ng's research interests are focused on the effectiveness and long-term outcomes of endodontic treatment. For her completed PhD program she researched the clinical outcome of endodontic treatment. She has published widely in international peer-reviewed journals with over 40 peer-reviewed articles and 80 research abstracts.
