If you're getting this book and your child isn't quite familiar with the characters it could be tricky since the names wouldn't be familiar. As in, 'Scraptors', since it isn't your everyday vocab word. these books always have a great story for youngsters and the with large font and plenty of photos it's easy to follow along.

If your child loves Dinotrux, this book is a great read for my 3 year old.

I am a book nerd, and as my own children have eschewed timeless love of the page for the *bleep bleep* of electronic devices and 32-bit virtual block building (why does an eight-year-old need to

know how to blow up a helpless sheep?), I am more than happy to share the love of reading with my nephews. I bought this for my nephew for his fourth birthday, and I have it on excellent authority* that he loves it.*My sister

Our grandson loved the dinotrux. Exactly as pictured and very sturdy.

My 4 yr old is obsessed with DinoTrux. This is one of the books the show is based on, and he wants to read it over and over again. This is one of the better books too. Easy read I, great story and bright illustrations

Great book for Dinotrux lovers!

My son love this love this book we read it just about every night and it makes it so easy for him to be able to turn the pages and read it himself will be purchasing other books similar to this in the future

My son likes the book, but the pictures are so dark, you can barely make out what they are of,
