bought it for a college course and it will definitely be one I'll be keeping. I enjoyed reading it.

good

I had to get this for a college class. It's pretty interesting. I hate studying philosophy but this book is actually set up pretty well. Sections are short so you can read bits at a time without forgetting where you were.

This book is really good.. takes different points of view and puts them all together.. really good if ur looking to increase ur knowledge and ideas
