Customer Reviews

Mediocre.. nothing here you can't find online for free... not much depth or history....

I rated this book 4 stars because it wasn't as in depth as I would like. It's great for the new owner or curious person wanting a basic understanding but does not go into any extra detail. There are a ton

of cool facts missing in this book. It could use more pictures too. Basically it's nothing more than a field manual.
