Prep Course For The Young Beginner: Lesson Book Level C

Synopsis

Alfred's Basic Prep Course, Levels A through F, was written to answer a demand for a course of piano study designed specifically for students who are five years old and up. This course offers a careful introduction of fundamentals, music that fits comfortably under the young student's normal hand span, plus constant reinforcement, all leading to results beyond those generated by other piano methods. After Lesson Book B, the student may progress to Prep Course, Lesson Book C or choose to go directly into the faster paced Level 1B of Alfred's Basic Piano Library. The complete Prep Course consists of six books (Levels A through F).

Book 3!! Best piano teaching book ever!

What can I say. I never received the book.

O love this books because it shows the basics and advances slowly so the kids learn to play properly.

Can't go wrong with Alfred books. I'm a piano teacher for young students and these books are perfect. I love the combo of a lesson and theory book. These books are wonderful for students under the age of 8. I like the Level 1A and 1B books for older children.

As a piano teacher, this is one of my favorite lesson books to work with beginners. After a student completes a primer level book, I normally use this book before heading into a level 1 book. The first chapter, all songs are written in C Major. The next session all of the songs are in middle c position, and the last part of the book is in low G major. I tend to begin in the middle of the book and play all of the songs written in middle c position, then moving to the beginning of the book (c major songs). Each song as a teacher duet, and most of the songs are familiar tunes - which is always helpful when teaching a beginner.

Perfect for my 10 year old student

Great book to learn piano
