# A World Of Bus Toys And Models (Schiffer Book For Collectors)

## **Synopsis**

Here is the most comprehensive collection of toy and model buses ever presented in one book. Experience the evolution of bus transportation as you explore a worldwide showcase of buses from the 1920s to the present. This book provides a unique resource for discovering an extensive variety of buses and over 150 toy companies who made them. These models feature coaches of most major manufacturers of buses; American, European and Asian coaches are shown in the actual liveries (trim) of scores of bus companies. Also featured are school buses, trolley buses and others. With over 500 color photographs of over 1100 buses, here is the missing link in the transportation toy library, the book that bus lovers have been waiting for!

Kurt M. Resch grew up in the mecca for United States bus transportation, metropolitan New York, and developed a love for buses at an early age. Photographer Richard Romagnoli's award-winning landscape images can be seen in galleries, magazines, calendars, greeting cards and his web site: [www.picturefarm.com](http://www.picturefarm.com).

This book seems to hold it's value, and after purchasing a used copy, I now understand why. It's an outstanding reference book, color photos, and details on each item. The buses are separated by manufacturer. You will not be unhappy with this purchase. By far the best toy bus reference

available today!

Whether you are interested in toy vehicles or real buses, this book offers a feast for the eyes. An astounding array of model buses from some 20 nations - diecast, plastic, tin-plate, and cardboard - awaits you; the material is extremely captivating. But beware, if you do not already collect model buses, you may find yourself doing so after perusing this book. Also included are many antique and rare models one doesn't see all the time. Granted, not every model is included and the survey could be a little stronger regarding models from the former Soviet Union. Nevertheless, this book has a lot to offer and I heartily recommend it to anyone with more than a passing interest in buses.
