babies love this book!

I think there were only 4 books in this set. I wish there were more. They are perfect and the translations are great.

Ecuadorian-American family loved this as a gift for newborn baby. Teaches both languages from the start.

Simple and adorable book. My baby loved this book so much that is practically falling apart. I got it when she was 6 months and the little book as seen better days! She's 20 months now and still gravitates towards this book. I'm thinking of getting a new copy.

My son loves the book and he always brings it to us when is time to go to sleep. The cover is great because he can bite it all he wants :)

Great book for bilingual tots. The word choice is on spot. My child also enjoys looking at the pictures of the children.

Great condition. Nice bilingual baby board book

Definitely as described. The only confusing part for me was that baby ate dinner in high chair after taking a bath, which isn't typical schedule for our infants, but it doesn't really seem to bother our baby, just me! My baby girl, now 11 months, has loved this book for 2 months running from first sight for its bright colors and different babies pictures, great for language development. Please note that conversationally some native speakers regionally sometimes say less formally to children that it is time to sleep using tiempo de dormir, and generally speaking for meals use time to eat as tiempo de comer. The written version in this book, however, is correct and acceptable throughout all regions and children should know the difference.
