Janice Novak developed her unique posture program over fifteen years of working with individual clients and teaching thousands of workshops for hospitals, universities and community education programs. She holds a master's degree in health and physical education, and regularly does health segments for television, including a guest author appearance on the Oprah Winfrey Show. Janice has also produced a companion DVD.

Fantastic book that includes advice and exercises that are well-organized, concise, and easy to

follow. Furthermore, Mrs. Novak's willingness and helpfulness in reaching out to those who have questions regarding her books and advice is unparalleled. An all in all excellent resource.

This is an outstanding book and has been one of my best purchases. I am a professional nearing 50 and noticed how people with excellent posture automatically have a more authoritative presence. I was originally planning on purchasing lumbar supports and devices that would help me keep my shoulders back. I would have been disappointed. This book has enabled me to address the underlying issue of unused and/or undeveloped muscles. I have been doing the recommended exercises daily and already see improvement. The book is well written and provides great descriptions of how to do each exercise. I tote this book around with me as a reminder to keep up good habits and also to do various exercises throughout the day.

love the way this is set up. It would work much better if only I'd use it.

Contains some worthwhile information and exercises.

Review by Mrs Maral immediately started reading this book when it arrived (right on time or even early) and I find it excellent. It's concise, very clear and very well organized. The drawings are very helpful. It will help me keep the progress going that I obtained after 4 weeks of physical therapy! It's a book I would highly recommend to anyone with posture problems.

I love it because it works. I am an older women and without realizing it, my posture went down hill, had back pain.Using this book I have regained the good posture I once had. My back aches subsided.

This book is just what I needed to correct "computer neck" (jutting forward of the neck due to constant use of the computer). My orthopedic physician recommended similar exercises,

This is great information, that actually works! The exercises are simple and after doing them for a few days they make you feel so much better.
