Family Law For The Paralegal: Concepts And Applications (2nd Edition)

Synopsis

This contemporary text reflects the emerging trends in American family patterns. With a focus on skill-building, *FAMILY LAW FOR THE PARALEGAL, 2/e* is written so readers understand family law and also the role a paralegal plays in family law practice. Each chapter includes cases, exhibits, tips and end-of-chapter assignments that address cutting-edge issues in the field. This edition includes a revised chapter on cohabitation and premarital agreements, a revised chapter on marriage and emerging alternatives, an expanded chapter on parenthood, links to important cases and an innovative MyLegalStudiesLab online course.

Customer Reviews

The information in the book is legally sound to the best of my knowledge. I had to purchase it for a class. But this book is rife with typos and grammatical errors to the point of being distracting. I wish these companies would focus more on building a good product rather than forcing a poorly edited new edition out just to drain the back accounts of students.

It was just what I needed to keep me in line with the procedures.

Thank you! :)
