This book is pretty great it gives you a chance to experience SSundee and Sky lol it's very creative even though it could be so easy to kill the noobs and I think the machine was kind of silly. I think they shouldn't make the books so nooby!! Well I give it ...

This was a good book. But, I found it really easy to read. Good if you have some time to kill. Especially on rainy days. I would recommend this book to anyone who is a minecraft player. But, kids would understand this the most.

Best books ever loved all of the MC books for EBOOK and the future of Redstone then the first time in the next generation of Redstone then the first time since I've been a bit of Redstone then I recommend this ebook to you and the next texas rangers have danced with girls and Obama in

Best book ever action and comedy toats worth the money. This book is so kid-friendly and it sort of teaches you lessons sort of . Buy the book and you won't regret it!!!!!!!

This book was good I liked it, but I felt the noobs took over too fast, I would add a sequel, or make it a series, to me it felt it just ended to fast.

This book is so awesome that you really need to buy it ,I can't describe how awesome this book is its like the best thing ever
