In the early 1940s, a loving father crafted a small blue wooden engine for his son, Christopher. The stories that this father, THE REVEREND W AWDRY, made up to accompany this wonderful toy were first published in 1945. He continued to create new adventures and characters until 1972, when he retired from writing. Reverend Awdry died in 1997, at age 85.

My son is enthralled with the Logging Locos, and he's a beginning reader. We first got Happy Birthday Thomas in this series, and it was the perfect level for him (other Thomas books tend to be more difficult to read and frankly a little tedious). He was really excited to read this book and very proud to be able to do so. The only drawback is that there isn't really a story here. Just sort of "here is Bash, here is Dash, watch out!" text. You get much more out of it if you also talk about the

pictures and what's happening and what might happen next. Also the binding is not good, our pages are falling out and have to be taped back in. But my son loves it and is happy to read this.

We have about 15 of these Step into Reading books - Thomas and friends. I think this one is the only one I've put less than five stars. It's very dry. It talks about how Bash and Dash go too fast but it never really has a storyline like all the books do. It's just they go too fast and then there's things in the way and they almost crash and Thomas "saves" them. Need more detail for this one. I know it's a kids book but I read these to my youngest son and for this one, I had to add in words to keep it interesting. But this brand is great! Sturdy and will hold up for years as we've had some for many many years!

Step into Reading brand books are the BEST beginner reading books. They use repetition which is very important in learning how to read and they use small beginner words. The book also has three to four words to a page. I can go on and on how my 3 year old, 4 year old and 5 year old have learned how to read from these books.

Good while my grandkids were starting to read; now t 6 & 9 years old both are at a much higher level.

Fun first reading books

Bought for my friend's four year old son. This book is great for print aware children and offered detailed pictures that you can incorporate comprehension questions.

Great for little readers 2-3yrs

My son loves Thomas the Train and this is a great book to add to his collection. This is a quick and easy read for those that are first leaning to read.
