# **The Problem Of God: Answering A Skepticâ€™s Challenges To Christianity**

## Synopsis

The Problem of God is written by a skeptic who became a Christian and then a pastor, all while exploring answers to the most difficult questions raised against Christianity. Mark grew up in an atheistic home, and after his father's death, began a skeptical search for truth through exploring science, philosophy, and history, asking the big questions of life, and eventually finding answers in Christianity. In a disarming, winsome, and persuasive way, The Problem of God responds to the top ten questions people raise against God, and Christianity, including, among others: The Problem of Science The Problem of God's Existence The Problem of the Bible The Problem of Evil and Suffering The Problem of Hell The Problem of Sex The Problem of Hypocrisy. Each chapter answers the specific challenge using a mix of theology, philosophy, and science on the one hand, while also using stories, illustrations, and anecdotes. It's apologetics for the rest of us, focused on both convincing the skeptic, and informing the Christian.

Mark Clark is the founding pastor of Village Church in Vancouver, Canada, one of the fastest growing multi-site churches in North America. Mark combines frank and challenging biblical preaching with real world application and apologetics to speak to both Christians and skeptics alike, confronting questions, doubts, and assumptions about Christianity. His sermons have millions of downloads per year from over 120 different countries.

The book is great for anyone to read. When I started attending church they told me: just believe!

Don't ask so many questions, just believe....I left the church and Christian faith for 25 years, it didn't make sense. Until I met people that were open for difficult questions and I started to understand who Jesus really is, it changed everything. This book is just great for people wrestling with all the questions of life. The writer has been there too, he knows what sceptical people ask as he did himself, therefore it's authentic and awesome. It's also good for Christians who want to deepen their faith and can start good conversations with their skeptic friends. I also think while reading that it is different than any other book written about these questions. It is rawer and touches more questions.

I came into this book having been a Christian for 31 years, but always having had some doubts about whether the "outrageous" stories and claims made in the Bible were true. I mean I believed that the Bible was true, but there was still a fairytale element in how I looked at a lot of what was presented as history and fact. As I read this book, I found myself saying "wow, this is really true", and actually feeling it in my bones. It's given a whole new strength and depth to my faith, and the courage to go out and share it with others. A must read!

Mark's preaching ministry shows both his passion for Jesus as well as his passion for people to know and love Him. Knowing something of his story of coming to faith and the questions/doubts he had to work through, I have no doubt this book will be a help both to skeptics and already converted alike. I'm only one chapter in and this already seems to be the case.

This is one of the most thought-provoking books I've read in a long while. Refreshing, rational answers for a faith-mingled skeptic. A great starting point for anyone who wants to comprehensively explore various questions that come along with Christianity. So thankful for this book-- would recommend to anyone.

Charges past the surface-level explanations we've grown accustomed to and tackles some of the hardest questions posed to Christianity with logic, hard facts, a relatable voice for the 2017 reader, and humour. An absolute must-read!

Mark does an incredible job of concisely answering some of the largest questions against Christianity. Definitely recommend reading this book.

A must read!

Great book!!! Super helpful for Christians and Skeptics alike. The chapter on hypocrisy is worth the price of admission alone. Buying a few copies to hand out to friends. You should too!!
