## Customer Reviews

I am new to Bullet Journaling- (I know, I miss the train on all the new trends) - but I wanted to give it a try. What I didn't want to do was spend a zillion dollars on all the "recommended" products before I even knew if I liked doing it! I mean, who needs a \$25 notebook they're going to write in for two days and forget about? Don't even get me started on the pens and stencils and stickers and accessories....Anyway, this notebook works wonderfully! It comes in many really cute designs, light dot grid, is big enough to write your week on a two-page spread but not too big to get into a medium-sized purse, is solidly put together- no loose binding, and is a substantial 170 pages. All for less than half the price of the "recommended " brand.I've purchased, and used, three of these books so far and have no complaints. I will be buying many more! Oh- and as for bullet journaling? All you really need is one of these notebooks and a pack of the PaperMate Flair Ultra Fines (they don't bleed through.) Less than \$20 total.
