It will help you calm the "f" down. The book is awesome. It has one image per page, not front and back, so no worries about markers bleeding thru and ruining another image. I love that there are a couple of pages at the front to test your colors on. The book has awesome images and sayings. The images vary significantly so there really is something for everyone. I've included some sample images from the book to get an idea of what is inside. Amazing book for anyone who loves to color at a super reasonable price. Great gift idea. I'm buying a couple more for friends now that I've seen the inside..." - Melissa S. "I have had so much fun coloring your designs! They keep me somewhat sane when I am not feeling well. Thank you so much for putting out this book!" - Trish H. "I have so many coloring books that I've collected for the last 20 years; as a potty-mouthed b*tch, though, this is my current favorite. Can't wait for the next!" - Debbie M. "This is by far my favorite coloring book and I have tons!! Just the perfect amount of swears meets funny. Some of the swears books are disgusting. This one is perfect!!" -Gavin S. "I don't typically do product reviews but this time I'm making an exception. I absolutely love this book! Sure I'm sarcastic, sassy and have a sense of humor, and if you are too you'll love it as well. Some pages are simple, some more detailed so it's great for someone trying to just get a start in this hectic new wave of adult coloring. In the long run it makes me smile, and isn't that worth every penny?" - Anonymous "I just received this 15 minutes ago. This is just what the doctor ordered. Clearly it's not for those offended by foul language, but that should be obvious by title. I don't write that many reviews and certainly not within minutes of receiving the article. This little treasure of a coloring book was definitely worth the effort. While I enjoy my beautiful garden, faces, animals, mandalas and steampunk coloring books, Sasha O'Hara knocked it outta the park with this little

diddy. I'm glad I didn't look at the pictures in the reviews. It was sooo much better being surprised by each turn of the page and literally laughing my a** off at such lovely drawings as the titles described my true feelings. There's a few I plan on coloring, framing and presenting to a few friends. Highly recommended to those not offended by uncensored foul language. - Moodswings

Sasha O'Hara gets me. She really really gets me. I have 4 kids, 2 grown and 2 young. The 2 younger ones are on the spectrum. I have a narcissistic alcoholic ex husband. I have a full time job. I have a divorce attorney who ran off with my retainer fee and didn't handle my divorce. I have a house that has plumbing issues and what appears to be a cracked slab. I have aches and pains and issues that have sent me to a dozen specialists over the last year with no real improvement. I guess you can say I might be stressed out. So there is this new trend with adults and coloring books and I thought - why not. I bought some pencils and a couple books and got started. One day, the first book in the series popped up on as an item I might be interested in. I purchased it

immediately because lets face it - knows me better than anyone - my ex husband included. The day it showed up, my daughter was in the midst of a meltdown because her iPhone wasn't working (she just needed to restart it) and just looking at the pictures brought me joy. I didn't realize that a second book had been released until I was looking at the first book to send the link to someone that I thought could use some Sasha in her life. I immediately purchased the second book and was delighted when delivered it a day early. Once again - this book speaks to my soul. I hate 6 AM. There are days when coffee is the only thing that keeps me moving. Sarcasm and coloring are my defense mechanisms. I'm working on not getting wrinkles. And yes - I can make wine disappear! These pictures - while absolutely silly and snarky - let me know that there are others out there who feel my pain. Maybe it's a mom thing - we take everything on ourselves and never feel like we do enough (though the guys I know also love these books). Maybe it's just our society these days where it's so hard to take the time to step back and feel connected. I don't know what it is. I just know that these pictures make me smile. As for the actual pictures - I love that there is a variety of styles. Some pictures have small intricate designs. Others have bigger areas to color in. As my eyes have been going buggy lately from I don't even know what (that will be yet another appointment) - I appreciate having choices I can work on when my eyes don't want to focus. And there truly is something for everyone. My youngest was recently introduced to the movie Clueless. He's been walking around saying "as if!" for days. He was so excited to find a picture for him too! Will this book change your life? Maybe. Maybe not. But if you need a little sarcasm and girl power in your coloring selection - then you need this book. I'm hoping there will be a next book after this one!

This book is awesome!! I was looking for something to help me zone out and chill out and this book is perfect!! The pictures are well drawn and there is a wide variety of intricate pages to simple pages depending on your mood. The paper is a good quality and pencils blend well! The pictures are one sided but you will need to put a dividing paper in between pages to prevent bleed through to be safe. This book is sure to provide hours of coloring and stress relieving pleasure. This is the second book in the irreverent series from Sasha O'Hara. I hope there are more to come!!

Because there are already a bunch of reviews, I'll make this short & sweet. This book has a wide variety of designs to color, some swears, some not, but all... fun! The pages are all single-sided, non-perforated. I recommend ALWAYS putting a piece of card stock between pages to prevent bleed-thru. Buy it, you'll like it!

Sasha O'Hara knocks it out of the park with her fun, snarly books. She's my favorite adult coloring book artist. I love that she doesn't use the same style throughout her books, like so many other adult coloring book artist do.

Not what I was expecting. Only one good illustration to use...I would recommend "Shut the F***Up! I am coloring" it has less quotes and a better variety of coloring subjects. Also the line work in this one is very thick and not smooth lines, overall it is messy.

With a deployed husband and 2 older kids that still don't get "it", I find myself more stressed and high strung than ever. So I color. To relax and unwind. This book is everything I could ever want and need. It's sarcastic, like myself, and also hilarious like me. Perfect combination.

This was another Christmas gift for my (grownup) daughter. She requested several of these type of coloring books -- and for the most part they are pretty cute and tongue-in-cheek. Definitely not for everyone, but it is a nice change for the more liberal-minded crowd. Pictures are printed on one side only and the paper is pretty good quality although I recommend using a waste sheet under the picture being colored to prevent bleed-thru if you are using markers instead of pencils. Pics are pretty detailed but not frustratingly so.

I have all of Sasha O'Hara's coloring books and none of them disappoint me! They are humorous and fun to color. The pictures vary from easy to intricate, which I love. This is one of my favorite adult coloring books!
