Boots Keep away from the moors.

I usually do the sounds with much gusto, drawing out the creeeeaaaaaakiinggg stair noises and screeeeech of the gate. It always gets a grin from my seven-month-old! He loves looking at the pictures and chewing on the corners of the book. The pages are thick enough that he's getting the hang of turning them on his own!

Disclaimer: this is my personal preference because I love all things aquatic. This Sherlock Holmes book just is not as pretty or interesting (even to my 10 month old) as the Moby Dick BabyLit Primer. I really wanted to love this one as much, but the colors don't "pop" and the descriptive words seem a bit off with regards to the picture. It's still a unique picture book that we look at frequently, but just not a favorite like Moby Dick.

Fair warning - your children aren't going to start deducing solutions to the world's woes. This is a simple book with one word per page. Just teaching fun sounds with creative illustration. My 18 month old son is obsessed with this book, so that's 5 stars from him. The book is sturdy and fun, so that's 5 stars from me!

Very cute children's book, especially for parents who love Sherlock Holmes and want to instill a love of our favorite detective in our own children! It's a very simple story and the illustrations are clever and fun to look at. However, be warned that this book has absolutely nothing to do with any Sherlock story. You'd be reaching to call it a mystery. But, it's a fun gift for any Sherlock lover to add to their child's library

Incredibly cute BabyLit book, just like the rest. I am giving this to a friend for his 6mo for Halloween. I thought it'd be safe for such a young baby because it's a sound primer. It's perfect for a Halloween gift.

Baby lit books are our all time favorite books! They are small books, but that does not underestimate the goodness inside. We have ordered just about all of the baby lit books and love to swap them out during seasons and holidays. I also love that they have different primers and different types of learning for your little one. These books are great gift ideas, there are a lot of genres to choose

from. The artwork and colors are bright and vivid, very pleasant to look at. The mommy and the teacher in me loves and approves these books!

This book was a gift for my infant daughter, and it has been her favorite her whole life. She's two now, and she can read it herself. I started reading it to her when we got it by just making the noises as dramatically as possible and now she does it for herself. So so fun and cute. The artwork is amazing, and even though there's not a lot of content per say, it's enough content for a person who's going to hop off your lap every 20 seconds to run off for something else. They're really beautiful books. We have 5 or six of them and love them all.

Super bummed about this book. I had high hopes but I think it's really boring.
