Customer Reviews

I've been a fan of Pokemon since Yellow version came out on GBA and I /loved/ this cookbook! It's very easy to understand even for someone who's not very good at cooking (me). There's a pretty big variety of food stuff in here, from pizza, to lunch boxes, to desserts! Each recipe has a picture of the finished product and has little illustrations to help with certain steps. If I had to pick out something that bummed me out a little, it'd be that a lot of the recipes call for store bought items (e.g. the store bought castella for the Pikachu cake), but I understand that this is a cookbook meant to be shared with a younger audience, so it makes sense and I can't fault it for that. Overall, this book was a delight to look through and I can't wait to try make some of the recipes!

good pictures. Hard to make.

kids love the recipes, fast and easy. Thanks

Love It!

So many fun recipes! I enjoyed the little cook tips on how to cook or cut out the shapes for the various Pokemon dishes.

Really good and very happy with this product

my son loves it

This cookbook sucks. Unless you can make rice into perfect shapes, dont get this. I was excited about getting it for my son and I was extremely disappointed. Its all rice and gelatin recipes...
