Steve McDonald is a Canadian artist and lifelong traveller who has lived in Italy, Saudi Arabia, India and Indonesia. He now lives in Ontario, Canada. Steve McDonald doesn't just draw the cities of the world. A lifelong traveller since his family moved to the Middle East in 1979, he's lived in Saudi Arabia, Italy, India and Indonesia, visited dozens of other countries and spent the better part of two decades travelling his native Canada from coast to coast via car, bus, helicopter, canoe, ship and on foot. Everywhere he goes he soaks up the local colour, the architecture and, most of all, the lines. Steve's process includes observing, sketching onsite and taking photos for reference in the studio, as well as working from many noted photographers' material. He lays down initial groundwork lines in pencil or on a tablet and then gets busy with the details. Although he works in many media, including acrylics, watercolours, and coloured dyes, his favourite is simple pen and ink. When he's not knee-deep in the intricate details of his drawings, Steve is likely surfing (most recently in the waves off the coast of Bali, where he lived for two years with his family) or cross-country skiing in the snowdrifts of rural Ontario, which he currently calls home. A graduate of the Ontario College of Art and Design, Steve's work has been showcased in many gallery exhibitions, television documentaries and various publications and can be found in many private

homes and corporate collections worldwide. You can also find it online at www.artbysteve.squarespace.com.

Cute and simple. Use this for keeping track of house chores that we completed on what day... i.e. when gutters were last cleaned, filters changed, etc. Works great for that purpose. Not for lengthy lists as it is intentionally smaller.

Love the sketch designs on each month, and for the discounted price, well done!

Cute calendar!

Beautifully done

The art for each month is interesting. I'm not a fan of the additional week (making each month 6 weeks long) just to accommodate another day or two in two months out of the year. I would have rather had larger spaces.

My wife loves this! Heck I love it! She does all the coloring in the lines.. I'm a marine so I can't be around crayons.. the pictures are fun and intriguing, clear and the calendar is thought out.

Beautiful pictures and wonderful high quality paper so you can color calendar pages afterwards (colored pencils, markers, or watercolors).

8 year old son loves this calendar. He loves drawing and designing buildings.
