## Customer Reviews

Reviews for the First Edition "The authors have done an amazing job in presenting the cultures of contemporary China, integrating the skills of speaking, listening, reading, and writing, providing extensive and various linguistic input, and consolidating learning through systematic reviewâ | this book is useful not only as an advanced textbook for achieving language competence but also as reading material for courses with a cultural emphasis â |The most outstanding components within each lesson are the grammar explanations and the Chinese character analysis exercises. The grammar explanation component explains each sentence pattern in great detail and with extraordinary accuracy. More important, simple, focused, and clear exercises follow each detailed explanation of a sentence pattern, immediately enabling learners to digest and reinforce the mastery of a grammar point quickly. The Chinese character analysis exercises provide a systematic review of frequently occurring phonetic sets of Chinese characters, helping learners decipher Chinese characters and synthesize the Chinese characters they have learned. The unique feature of this book lies in its emphasis on the link between cultural literacy and language competenceâ |The tremendous amount of online audio and visual supporting materials constitutes a second outstanding feature of the book, which provides learners with extensive and authentic exposure to the Chinese language and culture. Another valuable feature comes from the bookâ ™s emphasis on the transition from spoken language to written or formal languageâ |In conclusion, this is an excellent textbook for advanced CSL/CFL learners...Due to its special emphasis on culture and formal language, this book could also be a good choice for Chinese courses designed for Chinese heritage learners."- The Modern Language Journal 97 (2013) â Reviews for the Second Edition "The second edition of The Routledge Advanced Chinese Multimedia Course: Crossing Cultural Boundaries is an excellent textbook for advanced learners of Chinese, which successfully integrates development of linguistic competence and cultural literacy. The online supporting materials accompanied with this book are impressively rich, practical, and innovative." Han Luo, Northwestern University, USA. "This textbook provides a rich resource for expanding advanced vocabulary, studying complex sentence patterns and learning about formal writing style. It is a dynamic textbook

that generates great activities in class. While learning linguistic items, students gain an understanding of Chinese society, culture and history. My students enjoy the book very much."

The Routledge Advanced Chinese Multimedia Course is an excellent textbook for advanced Chinese. I began teaching myself Chinese about 7 months ago, and this is one of the textbooks I have used. After comparing this textbook to other Advanced Chinese textbooks, I have concluded that this book is outstanding. I enjoyed the reading comprehension passages, whose themes I found very interesting and relevant. The grammar and vocabulary sections were also of a high standard. This book surpassed my expectations, and as such I am giving it five stars. The accompanying videos are fascinating, though the speed of some of the speakers was a little too advanced. All in all, this is a fine book. It is very obvious from reading this book that the authors know how to teach material in a manner that is ideal for the student's comprehension. I am very happy that I got this textbook, and I have benefited greatly from its lucid content.
