Synopsis

But Did You Die? is the fifth hilarious installment in the New York Times bestselling I Just Want to Pee Alone series. And that one super helpful childless friend we all have who loves to tell us we're parenting wrong. So put your kids in front of the TV and let them eat junk while you read this book and laugh your tail off. We set the bar low so you can feel better about your parenting skills. You're welcome.

Customer Reviews

Most of the funny parenting books are also snarky and rather ugly about parenting, but this book is hilarious and enjoyable and truly light hearted. I LOVED IT.

I bought this book before a trip. It was perfect to read while waiting at the airport and while on the plane. The stories are humorous and entertaining, but short enough that I didn't mind being

interrupted by whiny children every 5 minutes.

This book is a collection of hilarious stories from parents who have obviously been through just about everything there is. I laughed, I cried, and I laughed some more. Excellent writers detailing very amusing and thoughtful parenting experiences. Highly recommend.

As always it doesn't disappoint! Love the complications of writers with different views and styles. Was asked three times about book bc of title/front cover. Love it!

Funny stuff!

Hilarious!!!

I ADORE this series and was so excited when asked to be an advanced reader and receive my copy in exchange for an honest review! But Did You Die does not disappoint! The collection of stories are from some of my favorite know it alls on the world wide web and it was so fun laughing along side them as they shared a piece of their soul. My favorite thing about this series is you don't have to read the book in order.. I know rebel without a cause here! I like to jump around with these and since each essay stands on its own, the tears of laughter will just keep rolling!!!! Get your copy right now!!! You will not be disappointed, likely relate to more than one chapter and I have no doubt you will find a new writer or 35+ to follow! Parenting takes a tribe and these peeps are definitely a part of mine!!!! This book will be on the gift to give list and future copies will be purchased to share with friends and maybe even strangers!
