Customer Reviews

Great book for schools and home schools!

Great!!!

My daughter's room is very disorganized and so at the end of the school year when she had to hand in her text books, this one was missing. I bought this one as a replacement for the missing text and of course one year later the original was found behind her desk. The price I paid for the replacement was much less than the school was going to charge for the missing text and was in better condition than the school's text.
