Berber Government: The Kabyle Polity In Pre-Colonial Algeria (Library Of Middle East History)

Synopsis

The Berber identity movement in North Africa was pioneered by the Kabyles of Algeria. But a preoccupation with identity and language has obscured the fact that Kabyle dissidence has been rooted in democratic aspirations inspired by the political traditions of Kabylia itself, a Berber-speaking region in the north of Algeria. The political organisation of pre-colonial Kabylia, from which these traditions originate, was well described by nineteenth-century French authors. But their inability to explain it encouraged later theorists of Berber society, such as Ernest Gellner and Pierre Bourdieu, to dismiss Kabylia's political institutions, notably the jema'a (assembly or council), and to reduce Berber politics to a function of social structure and shared religion. In *Berber Government*, Hugh Roberts, a renowned expert on North Africa, explores the remarkable logics of Kabyle political organisation and the unusual degree of autonomy it possessed in relation to both kinship divisions and the religious field. This book further offers a pioneering account of the social and political history of Kabylia during the Ottoman period and establishes a radically new way to understand the complex place of the Kabyles in Algerian politics.

Book Information

Series: Library of Middle East History

Hardcover: 352 pages

Publisher: I.B.Tauris (November 30, 2013)

Language: English

ISBN-10: 1845112512

Customer Reviews

"Hugh Roberts's book is sharp, exhaustive, detailed and poignant. It fills an important gap and its general point about the institutional richness of Kabyle politics (and the primacy of politics more generally) is made with devastating effect. The book does not just track and explain five hundred years of 'the Kabyle polity' (though it does that) but also explores the logic of how and why the polity

transformed as it did when it did.Â There is no arguing from first causes or flaccidly conceived
â ^cultural tendenciesâ ^TM.Â Roberts alerts us to multiple possible readings of every turn of events,
and marshals evidence for his way of understanding each one of them.Â What makes this
intellectually satisfying is the way these are brought together, the way empirical rigor and sometimes
bewildering specificity is rendered sensible via a broader logic of institutional forms understood and
acted upon in particular cultural ways.Â Neither the culture nor material conditions explain political
life.Â Political life is undertaken by political actors, whom we get to know through Robertsâ ^TM's
description, and these actors employ the institutional resources available to them in culturally
sensible ways in their historically specific moments.Â Eric Wolf long ago complained that European
scholars conceive of Others as â ^people without historyâ ^TM. Robertsâ ^TM's book is a potent antidote
to that. I have not read anything like it." (â " David Crawford, Professor of Sociology and
Anthropology, Fairfield University)â ^InÂ Berber Government: the Kabyle polity in pre-colonial
Algeria Hugh Roberts brings to bear his unbeatable knowledge of Ottoman Algerian history and
politics as well as his equally impressive gift for social theory. He provides a convincing map of the
structures, legal system, and complex social networks that had generated a self-governing Kabyle
Berber polity by the advent of French colonial rule.â ^TM (- Edmund Burke III, Research Professor of
Modern Middle Eastern and World History, University of California, Santa Cruz)â ^Shattering the
views of Orientalists and nativists alike, this massively erudite and ruthlessly precise book takes the
reader on an exhilarating detective hunt through barely-known sources, exposing a rich political
history of Berber self-government that generations of researchers have missed. This is a landmark
study that decisively changes the received wisdom on Berbers, Algeria, and the political history of
the region. It is one of the best books I have read in Middle East Studies in recent years.â ^TM (â "
John Chalcraft, Associate Professor, Department of Government, LSE)

Hugh Roberts is the Edward Keller Professor of North African and Middle Eastern History at Tufts
University. He previously held the position of Director of the International Crisis Group's North Africa
programme and is the author of The Battlefield: Algeria 1988-2002.
