Customer Reviews

In 2000, Teach for America alumnus and Yale graduate Zeke Vanderhoek had a radical idea: students learn better from better teachers. His vision of what test prep could be if written and taught by great educators led him to start Manhattan Prep. Since we began, Manhattan Prep has grown from a boutique tutoring company to one of the world's leading test prep providers, offering GMAT, GRE, LSAT, ACT, and SAT courses and tutoring worldwide. We believe test prep should be real education. From our instructors to our materials, we work to teach you the skills you'll need to succeed on the test, in school, and beyond.

Was incredibly helpful in prepping for GRE. I took the flashcards on the go with me and made it easy to study whenever, wherever. 500 flashcards covered all of my bases. Worth the investment.

These cards are of no use. The problems are not flash card quality problems.

The cards are very useful to prevent forgetting quant material in GRE. The exam is not abstract or hard but comprises an amount of information big enough to let space for silly mistakes. The cards are aimed to help you realize those possible mistakes and correct them in time. The bottom line is that you will not get smarter nor with the GRE neither with the cards. However they are a tool that will help you automatize the material (rather than to memorize it) at low or no relative cost (in terms of time) and will help you manage better your time per regular questions (time management is the real issue in GRE) giving you more time to use for harder questions. In my case, I did the exam two times, the first one using bad material and the second one using appropriate material (at least for quant), i.e. manhattan and magoosh. The first time scored 161 :(the second time I focused in time management issues and got 168 ;) ... furthermore, in the first session I finished 10 mins earlier and in the second 5 mins. What can I say?...these cards were helpful for sure (buy them)

Great cards if you have at least a month to dedicate to studying them, if not, don't bother, you can't get through them in time.

These flash cards were good and seemed to work from the basics on up. They're worth a shot if you're serious about boosting your GRE Quantitative score.

Help. The trick is actually using them

Very helpful..

These flashcards were very helpful and kind of fun!
