The Emperor Wears No Clothes: Hemp And The Marijuana Conspiracy

Synopsis

Jack Herer has updated his authoritative history of hemp's myriad uses and of the war on this plant, just as it has become high-profile news, with supporters such as Woody Harrelson and Willie Nelson. Herer thoroughly documents the petrochemical industry's plot to outlaw this renewable source of paper, energy, food, textiles, and medicine. Photos, illustrations & charts. 10 tables.

Customer Reviews

Jack Herer, Knew he was right. Hemp is the answer to save the world's forests by simply planting Hemp which makes building materials, paper, clothing Hemp Foods, Cosmetics, bio-fuel and much more. One crop of lumber takes 20 years to grow for paper pulp and you can get several crops of Hemp in one year with each being equal to the output of the 20 year crop. This can save the forests and waste less land. While it's cousin Marijuana is beneficial for and may be a cure for over 50 different diseases including cancer. He woke up America to possible conspiracies to suppress Hemp by uncaring corporations and did more than anyone else to promote Marijuana & Hemp as Good and Valuable for health and has brought us much closer together.

This book is a smorgasbord of information and I've had to take it in small bites, read, re-read and savor those little morsels of information because it's SO GOOD! My husband has even picked it up and learned a lot! If you are a new medical patient or a decades-long stoner THIS BOOK IS A MUST!! truly hope that, considering the current turn of the tides in the legalization fight, this book

goes back into print. Every doctor and politician should be given one of these so they cannot claim ignorance. It's time, folks - spread the news far and wide - the War on Drugs is a war on us. The Emperor Wears No Clothes will give you a wake up call and facts to rebut those pesky prohibitionists! PICK ONE UP NOW and SHARE IT WITH YOUR FRIENDS!

This is an amazing expose' on the real reasons behind the suppression of the use of hemp/cannabis for medical treatment. The big pharmaceutical stand to lose a lot of 'customers' and therefore MONEY if the natural substance of hemp/cannabis is known to cure cancer and other ailments. Where would they make their living if their drugs were no longer useful???? This expose' covers a lot of ground as to the people who fought to make marijuana/hemp/cannabis illegal and why they are still fighting a losing battle as more and more people realize the sinister actions on the part of government and big pharma!!!! A MUST READ!

I don't personally smoke pot. Or at least hardly ever. Well sometimes maybe a little at bedtime. It just gets me too stoned. Like I can't get things done or carry on a coherent conversation. I know plenty of people like myself in this respect. We all have nothing against people who smoke pot, just don't prefer it for ourselves. On the other hand, I know a number of people who smoke pot on a regular basis and are just fine with it, functioning just fine and some who would be a total wreck without it. I know I would much rather be around someone who is high on pot than someone who is drunk. Enough of my personal observations, though. The Emperor Wears No Clothes is about much more than the demonization and suppression of pot. It is about hemp, arguably one of the most useful plants on earth, and the crime against humanity committed by those who have fought a war against this plant. This is a book that will open your eyes to the greed and ulterior motives of those who have turned public opinion against hemp, and in so doing have made the world a much worse place to live in. Read the book, you will see what I am talking about.

This is the bible; it is thorough and comprehensive. No matter how much you think you know about hemp and marijuana, you will find things in here that will surprise you. I always wondered about Lewis Carroll, especially with the picture of the caterpillar smoking from the hookah, but they confirmed it. He was a stoner. That's not to say it's a bad thing. After all, look at the finished product. Most of the myths we've been told about marijuana usage as a "gateway" drug and its harmful effects have never been proven. Actually, the opposite is true. All the studies confirm that its medicinal value has been underrated. Even though you smoke it to get the benefit, it's amazing to

think that it can be even be used as a treatment for emphysema.Plus, now that we are looking for alternative energy sources, it is outrageous that we have not investigated the possibilities of growing hemp as a source of biofuel to replace imported oil. But, when you have major corporate interests controlling government and protecting their monetary interests, what do you expect?

This gets the Cannabis Tech Superuniversity Seal of Approval by Dr. Cannabis himself. The reason the governments of control and taxation slavery hate Cannabis is because, if you ingest it one way or another, it will put you in touch with the Spirit of Truth and Idealistic Beauty within your mind where it enshrouds your soul. So you will feel the presence of the Prince of Peace—Jesus—within yourself and it will feel GOOD and make you happy. Only God is good and feeling him within yourself is very ennobling. People like to share Cannabis products with one another because Sharing is Godlike! So smoke a joint with Jesus and learn to love him and everyone else as He would. Let the Golden Rule! Aloha, Jim Kimmel

I am so happy to have purchased this edition of the book, being an anniversary issue and the reprinting that covers so many epitaphs to him and the great work that he's done. I am barely beginning to read it, and I've already learned a number of facts about commercialism that makes me want to never buy from large industries again! Brave was Jack Herer to fight the injustices seen in the united states over a weed! Who would have believed this good humored plant that helps so many people whould become the scapegoat for industrialisation and its waste products. If a plant could stand up for itself and show the world what biotic suffering looks like, Cannabis could be the one to try to do it. A flowering weed, a plant with a flower, has become a national threat to society, not barely 50 years from a time when it was the most used fiber and natural oil substance in the united states! Only nastiness could make a turn around like that happen, and it was nastiness. An industry that wanted to take over the market with a product that would harm and do damage to our home world.
