# History Of Dominica, British Virgin Island: Government, Politics, Economy, People

# Synopsis

Dominica is the most mountainous island in the Caribbean. The land rises in places straight from the sea, towering to high peaks. This rugged landscape is softened somewhat by the luxuriant forests that coat the hills and give the island its distinctive verdant beauty. After nearly 3,000 years of human habitation, Dominica, known to many as "the Nature Island of the Caribbean," is one of the few places where untouched primary tropical forests can still be found. More than in most islands, this rugged terrain has guided the course of Dominica's history. The steep mountains and deep valleys provided the early Carib Indians with a natural fortress against European colonizers, making Dominica one of the last islands to be fully colonized

# Book Information

Paperback: 144 pages

Publisher: CreateSpace Independent Publishing Platform (February 12, 2016)

Language: English

ISBN-10: 1530002907

ISBN-13: 978-1530002900

Product Dimensions:  5 x 0.3 x 8 inches
