Franko Maps Ltd. is known for producing the best travel, dive and snorkel maps, guides and fish cards for the Caribbean and other locations worldwide.

This is a neat little map. It provides an appropriate amount of detail for driving around the island. It also acts as a small travel guide since real Bonaire travel guides are hard to find. I would give it 5 stars if it had more detail around the main towns.

Franko's maps are the best! I've used them diving off Cozumel, US Virgin Islands, British Virgin Islands, Cayman Islands, Maui and Belize, in addition to Bonaire. They provide a wealth of information, not just on dive sites but fish/sea creature ID, land attractions, city map insets, info on other things to do, weather & water temp and more. Pretty much every square inch is filled with information. Especially on Bonaire, where you're probably going to be driving to shore diving sites on your own, this map is invaluable. The waterproof, tear-resistant material is great too. If you're

going diving or snorkeling off Bonaire, get this map for sure! If you're just visiting the solid portion of the place, it's quite useful too. They're sometimes available locally, but they'll cost more than here, and you want to peruse the map BEFORE your trip so you can be thinking about what you want to do!
