"A must for a parent looking for a positive book about breastfeeding for older siblings." -- Anna Burbidge, La Leche League GB

Victoria was born in 1982 in the Philippines. When she was four her parents settled in Argentina, birthplace of her mother. Victoria immediately fell in love with the land of the gauchos, deeply bonding with horses and farm lifestyle. At school she enjoyed arts and languages, specially creative writing. After completing her studies she travelled through South America, Australia and USA, finding profound insights through these journeys. Back in Argentina she started meditation studies at "El Sendero de El" for 5 years, where she developed her self through native shamanic journeys and the medicine of sacred plants. Victoria met her husband in Buenos Aires and their daughter was born at home in 2007. Triggered by this powerful experience, she self published *Compartir el Parto*, a book of homebirth experiences in which she promotes respect for birth. In 2010 Victoria wrote *The Mystery of the Breast* uniting her love for writing, children and healthy upbringing. Victoria

currently lives in the mountains of Cordoba, Argentina, and continues her writing, especially for children.

It's not fun, interesting, or mysterious. Just not very good. Really. I gave it two stars because I like a few of the illustrations. I guess you could rewrite...or write...a story using the pictures? Maybe not even that.

The pictures are really sweet, but I just can't read it. There is no plot, no story, no flow of ideas...just a bunch of words on a page. It's too bad because it is a good idea.

In addition to not having a cohesive story to support the "mystery" title, this book has at least one significant typo. The word "brother" is written as "bother" on the third page of text. I did think the images are cute, especially the picture of the snuggling, happy baby on the fifth page.

This book is absolutely beautiful. I'm not sure why others have only given it a 2 star rating? It's describes so beautifully the bond between nursing and an infant to a sibling in story form. It has beautiful pictures and my girls love reading it as I nurse their brother. It's a beautiful book to read to children so they understand mamas milk is more than food. It's love too.
