Customer Reviews

For almost 80 years, Kaplan Test Prep (www.kaptest.com) has been helping students grow their knowledge, skills and confidence so they can be their best on Test Day. Our prep books and online resources provide the expert guidance that students need at every step of their educational journey — incorporating years of test-specific data and strategies tested by Kaplan students and our own expert psychometricians. After helping millions of students, we know what works. Our guides deliver knowledge with clarity and simplicity while focusing on the specialized strategies that keep test-takers ahead of the clock and at the top of their game. We offer preparation for more than 90 standardized tests — including entrance exams for secondary school, college, and graduate school, as well as professional licensing exams for attorneys, physicians, and nurses. With a full array of self-paced and live online courses, as well as print books and mobile apps, you can use Kaplan to study on your own schedule and at your own speed. Kaplan's private tutors and admissions consultants supplement those offerings with one-on-one support.

I'm also an attorney, and am VERY disappointed in Kaplan's 2016-2017 edition. In order to do well on the LSAT (and the Bar exam too) one has to practice and drill with similar questions. Instead, this edition wastes most of its 933 pages on explaining the various types of questions which may be offered on the exam. In brief, it's big on theory, and short on practice exams one can actually challenge and time oneself with. (There is only 1 practice exam, and one must register on-line in order to take it.) It does offer "Question Pools" in each of the LSAT sections, which is nice, but those do not allow one to simulate the actual test under timed conditions. Kaplan's 2015 edition - which I borrowed from the local library - does a much better job of balancing explanation with testing. The 2015 version provides 4 practice tests, and the "Question Pools," along with detailing and breaking down LSAT problems. Bottom Line: Purchase the 2015 edition. Kaplan LSAT 2015 Strategies, Practice, and Review with 4 Real Practice Tests: Book + Online (Kaplan Test Prep)

I bought this book and read only the book until Chapter 5 when we start practicing loose logic problems. At that point I realized I needed to go back to chapters 1 & 2 and really get comfortable with basic formal logic. I re-read those chapters and didn't feel like it helped much so I jumped online and started watching the videos. The videos were VERY helpful. By combining both resources, I got to feel really comfortable and helped me tremendously when I went back to Chapter 5 and did more practice problems.

I like this book. This book is comprehensive, dry in approach. Lacking the guiding elements you

would get from an instructor but bursting with enough information that you must either grasp instantly or labor upon until they become clear in your mind.

This was a gift from my husband as a little motivation after I had been talking about wanting to go to law school. I have been using it for about a month now and it is a really great study guide. For each question asked there is a very clear and detailed explanation of the answer. It also comes with online resources and practice test which are an excellent addition to the book. I am still undecided about taking the test but if I do I know that I will be better prepared because of this book than had I not used it.

This is the next best way to test prep besides taking a prep class. The methods, practices and explanations are easy to follow. Give yourself at least a few months to get through this book, because while some can get a great score without having to read cover to cover, I personally benefited from giving each section an ample amount of my time and efforts.

Love this book and the online tutorials. Very helpful. I take my exam in September and I used this book and the lsat prep from the website.

I love this LSAT prep book. It does not feel like I am studying but like someone is talking me through working on the necessary skills to be successful.

So far so good! Very informative and thorough.
